

**Are you looking to gain experience working with children in a therapeutic setting?**

**Would you like more experience with facilitating group therapy?**

**Do you have interest in gaining first hand experience in better understanding ADHD, ASD, Anxiety, or other diagnoses as they present in childhood and adolescence?**

**If yes, Quest camp may be a fit for your practicum or internship needs:**

## **Quest Therapeutic Summer Camp**

Quest camp offers the following to practicum and internship students:

- Exposure to working with children with a wide range of diagnoses ages 6-18
- Plenty of opportunity to obtain direct hours
- Opportunity to shadow seasoned staff and learn Quest's unique methodology
- Daily group supervision with staff
- Supervision from an LPC as well as collaboration with other Master's level staff from the helping professions
- The opportunity to learn positive behavior support techniques which can be used with any populations you might support in the future
- Opportunity to plan and run group therapy sessions
- Daytime hours

Quest has been a practicum, internship, and field placement site for students from Carlow, Chatham, Duquesne, and the University of Pittsburgh since it began operations in Pittsburgh 6 years ago. This summer, camp will take place from 6/12-8/4. Students may have opportunity to gain additional hours in the weeks before and after camp, if needed.
